

ENVIRONMENTAL, HEALTH AND SAFETY POLICY STATEMENT

At Eagle Air Safety, Health and the Environment is an integral part of our day-to-day activities. Our ultimate objective is to foster an environment, which calls for safety awareness that is fundamental in the aviation industry, and to ensure the incorporation of best practices at the work place.

The company aspires to:

- Demonstrate a continuous and efficient safety improvement plan.
- The creation of a clean, secure work environment.
- Minimise work place injuries and occupational hazards.
- Regular capacity building of the workforce to meet the standards and demands for new safety measures and environmental protection.
- The establishment and maintenance of a chemical safety management process.
- Effective waste management and disposal of foreign object deposits (FOD) from the aircraft.
- The minimisation of aircraft noise pollution.
- Development of a safety management system and formulation of an Emergency Response plan.
- Maintenance of an updated database of personnel, and other records of flight documents, incident reports and current records of qualifications and training of employees.
- Flight safety and to ensure operational quality compliance and adequacy of procedures as required by authority regulations to ensure safe operational procedures.
- Proper handling and recording of incidents and accidents.
- Making every employee aware of their individual safety responsibilities.
- To review and revise this policy as necessary at regular intervals.
